DON'T WAIT UNTIL IT'S TOO LATE 13

Dear Valued Customer,

Hello, and thank you for your recent request for information regarding diversifying your retirement savings with physical gold and silver.

You're probably just as concerned as we are for America's economic future. For the first time in our proud nation's history, we're facing a future where our standard of living will decline compared to those who came before us. Our two-decade-plus national binge of deficit spending and multiple bubble-and-bust cycles of the stock market has created a financial dilemma for Americans who hope, one day, to stop working and enjoy their golden years.

The U.S. faces an absolute ocean of red ink, over \$30 trillion (and counting). That's money owed to global central banks, U.S. citizens, and future recipients of Social Security, just to name a few. We've seen the federal government bailout banks owned by other nations. We've seen the Federal Reserve conjure trillions of brand-new dollars out of thin air, nearly overnight! It's only a matter of time before the entire house of cards comes tumbling down before our government becomes financially bankrupt, dooming all our futures, and our children's futures as well.

We have a window of opportunity right now. To diversify our hard-earned money out of the inflated, increasingly-worthless U.S. dollar. To turn those pieces of paper, backed by nothing but hot air and vague promises to pay with real, physical assets we can hold in our hands.

My colleagues and I at American Alternative Assets have been working hard to educate everyday Americans just like you about the crucial importance of acquiring physical precious metals due to their intrinsic value. We want you to know the benefits of acquiring rare, highly-valued U.S. coins to diversify and protect your savings. I'm confident that, if you're given the facts, you will make the right decision. You will proudly join millions of your fellow Americans who own rare coins and precious metals.

Please take as much time as you need to review the enclosed materials. I know it's a lot to take in! And remember, at any time, my staff of professionals stands ready to make your experience enjoyable. We want to offer you the same level of white-glove service the world's billionaires get when they go shopping - while never losing sight of the critical protection that tangible items with intrinsic value can give your financial future.

If I can personally be of any additional service to you or your family, please give my office a call at (833) 656-4653. You have my commitment that our organization will make every effort to serve your needs with integrity and honesty.

Sincerely,

CEO, American Alternative Assets

THE DIFFERENCE WE ARE MAKING

“Gold is money. Everything else is credit.”

_J.P. Morgan

The core of our company is directed at providing great opportunities for Americans to protect and diversify their retirement funds through physical precious metals. We provide valuable knowledge and every of our company’s decisions is tailored towards ensuring a smooth transition to your retirement plan.

Our Mission

Our mission is to provide the best service through value of integrity, support, and knowledge to empower customers in making financially prudent decisions to attain their desired financial future and protect their savings.

Our Values

We achieve this mission through values of hard work, customer centeredness, integrity, empathy, and efficiency. We support our customers through the whole process to enable them to understand all the available options for purchasing precious metals and guide them in choosing one that is best suited for their goals.

Our Vision

To establish a network of financially secured American retirees through sustainable ownership of physical assets.

HERE'S WHY WE ARE THE BEST

American Alternative Assets stands as the best in industry as we offer a time-proven track record of success in our service provision. We have a profile that projects values of integrity, empathy, and hard work dedicated to helping customers meet their needs.

Simplicity

Our process is simple, easy to understand, and execute. Our customers trust us to make their retirement plans straightforward; hassle-free.

Transparency

We understand the value of integrity and pride ourselves in being open with our customers. We build and sustain trust through an entirely transparent process. From the point of contact to the delivery of your metals, you can count on our fair and trustworthy service.

Reliability

You can count on us to help you make the best choices. Through every step of the process, from lower prices to insured delivery we are always client-oriented. We have a track record of reliable customer service, something you can count on when safeguarding your future.

The benefits of choosing us are innumerable. We have set a standard in the industry that remains to be matched. Our mission, vision, and values drive us to give customers the best value when making their retirement plans. Our service aims to establish trust—and to do it in the most honorable manner.

What began as a secret meeting between six banking dynasties became the legislation that transformed America from a nation of savers into a country of debt slaves. Your retirement security was their first casualty.

INTRODUCTION: **THE YEAR AMERICA DIED**

You're 67 years old. You've worked hard, saved diligently, and followed all the "rules" – yet something feels terribly wrong. Your grocery bill has doubled. Your savings account earns nothing while everything costs more. The news talks about "no inflation" while you're living a different reality. You're watching your purchasing power evaporate before your eyes, and you can't shake the feeling that the deck is stacked against you.

This wasn't just another year—it was the year America died. In those twelve months, six elite bankers engineered the greatest theft in human history, creating a system that would systematically loot every American family for over a century. What they set in motion that year is why your retirement feels impossible today.

If you're wondering why your dollar buys 97% less than it did when your grandfather retired... why marriage rates have collapsed as young people can't afford families... why central banks worldwide are hoarding gold at record levels while telling you it's worthless... it all traces back to the worst year in American history: 1913.

URGENT

If you're concerned about your retirement security, don't wait until it's too late. Call us now at (833) 656-GOLD to speak with a precious metals specialist about protecting your savings from the 1913 system.

CHAPTER 1: THE YEAR AMERICA DIED

1913 wasn't chosen by accident. It was the perfect moment for six elite bankers to execute the greatest financial heist in human history.

WHY 1913 WAS CHOSEN FOR THE GREAT DECEPTION

The bankers needed the right political conditions. A new president (Woodrow Wilson) who could be influenced. A Congress distracted by other issues. And most importantly, a public that trusted their government to protect them from the very wolves who were about to take control.

THE TWO LAWS THAT ENSLAVED A NATION

In 1913, two pieces of legislation passed that would destroy American prosperity forever:

The first gave the government unlimited power to take your income through the 16th Amendment.

The second gave private bankers unlimited power to create money from nothing through the Federal Reserve Act.

Together, they created a system where working Americans fund an ever-expanding government through confiscatory taxation, while private bankers profit from inflating away your savings. Wealth flows upward to financial elites while middle-class families struggle, and each generation becomes poorer than the last.

HOW SIX MEN ORCHESTRATED THE PERFECT CRIME

Both laws were written by the same six men during a secret meeting. They knew exactly what they were doing—and why it would make them unimaginably wealthy. The beauty of their plan was its simplicity: make Americans pay for their own enslavement while believing they were being protected.

CHAPTER 2: THE SECRET ARCHITECTS

In November 1910, six of the world's most powerful men vanished from New York under cover of darkness:

- **Senator Nelson Aldrich** (whose daughter married John D. Rockefeller Jr.)
- **Henry Davison** (senior partner at J.P. Morgan)
- **Paul Warburg** (representing the Rothschild banking interests)
- **Frank Vanderlip** (president of Rockefeller's National City Bank)
- **Charles Norton** (president of Morgan's First National Bank)
- **Professor A. Piatt Andrew** (Assistant Treasury Secretary)

These weren't government officials protecting American interests. These were private bankers protecting their own profits.

Their clandestine meeting and what they planned

They traveled by private rail car to a secluded island off the Georgia coast, where they enjoyed wild turkey dinners and crafted legislation in absolute secrecy. The meeting was so clandestine that they used only first names to prevent staff from learning their identities.

For nine days, they wrote the laws that would transfer America's wealth to themselves and their descendants forever.

STOP THE THEFT

If you're concerned about your retirement security, don't wait until it's too late.
Call us now at **(833) 656-GOLD** to speak with a precious metals specialist about protecting your savings from the 1913 system.

CHAPTER 3: LAW #1 - THE INCOME TAX TRAP

HOW THEY SOLD AMERICA ON "TAXING THE RICH"

The 16th Amendment was sold to Americans as a way to make wealthy people "pay their fair share." Politicians promised it would never affect ordinary Americans—only the super-wealthy would pay this new income tax.

THE 16TH AMENDMENT'S TRUE PURPOSE

Before 1913, the federal government had no power to tax your income. The Constitution required that any direct taxes be apportioned among the states based on population—making income taxation nearly impossible.

The bankers needed to change this because their second law (the Federal Reserve Act) would require massive government spending to function properly. They needed a way to fund the government they were about to capture.

WHY LESS THAN 1% PAID TAXES INITIALLY (AND WHAT CHANGED)

When the 16th Amendment passed, less than 1% of Americans paid any income tax at all. The rate was just 1% on incomes over \$3,000 (about \$88,000 in today's money).

But within five years, World War I provided the excuse to expand the income tax dramatically. By 1918, the top rate hit 77%. The "temporary" tax on the wealthy became a permanent burden on everyone.

Today, when you factor in federal income tax, state income tax, Social Security, Medicare, property taxes, sales taxes, and countless hidden taxes, the average American pays over 40% of their income to various governments.

The income tax was never about "fairness." It was about creating a permanent funding mechanism for paying interest to the private bankers who were about to gain control of America's money supply.

CHAPTER 4: LAW #2 - THE MONEY MONOPOLY

THE FEDERAL RESERVE ACT: PRIVATE BANKING DISGUISED AS GOVERNMENT

On December 23, 1913—while most of Congress had left for Christmas vacation—President Woodrow Wilson signed the Federal Reserve Act. This was the second part of the bankers' plan, and by far the most devastating.

Americans were told: "We're creating a government-controlled central bank to prevent financial panics and stabilize the economy."

What actually happened: Private bankers gained control of America's money supply while maintaining the illusion of government oversight.

HOW THEY GAINED CONTROL OF AMERICA'S MONEY SUPPLY

Here's how their scam works:

- 1. The Government Needs Money:** When Congress wants to spend money it doesn't have, it issues bonds (IOUs).
- 2. The Fed "Buys" the Bonds:** The Federal Reserve purchases these government bonds with money it creates from nothing—literally typing numbers into a computer.
- 3. The Government Pays Interest:** American taxpayers must now pay interest on money that was created from thin air, forever.
- 4. The Bankers Collect:** The Federal Reserve's shareholders (private banks) collect interest payments on money they never had.

THE WEALTH TRANSFER MECHANISM THEY BUILT

This system requires the total amount of money in circulation to constantly grow, because the principal is created but not the interest. This guarantees perpetual inflation—the silent theft of your purchasing power.

Every dollar you've saved is constantly losing value because new money is being created to pay interest to private bankers. Your savings account doesn't earn 0.5% interest—it's being robbed at 3-8% annually through inflation.

PROTECT YOURSELF NOW

Don't let the Federal Reserve system destroy your retirement. Gold has protected wealth for over 5,000 years—long before the bankers created their paper money scam.

Call **(833) 656-GOLD** to learn how a Gold IRA can shield your savings from their theft.

CHAPTER 5: 110 YEARS OF SYSTEMATIC THEFT

HOW EVERY ECONOMIC CRISIS SINCE 1913 ENRICHED THEM

Since 1913, this two-pronged system has functioned exactly as designed. The Income Tax ensures government has unlimited funding for unlimited spending. The Federal Reserve ensures that unlimited spending benefits private bankers through interest payments on created-from-nothing money.

The result: The largest wealth transfer in human history, from working Americans to financial elites.

The mathematical impossibility of their debt-based system

Consider these facts:

- **In 1913:** A dollar had the purchasing power of about \$31 today
- **In 1913:** The average home cost \$3,395 (about 2.5 years of average income)
- **In 1913:** A new car cost \$525 (about 4 months of average income)
- **In 1913:** College tuition was \$150 per year (about 6 weeks of average income)

Today: A dollar buys what 3 cents bought in 1913. Your money has lost 97% of its purchasing power.

This isn't accidental inflation. This is systematic wealth extraction.

WHY YOUR RETIREMENT IS THEIR PROFIT CENTER

You were told to save dollars in 401(k)s and bank accounts. But those dollars are designed to lose value. The system requires your purchasing power to decrease so that banks can profit from money creation.

When the Fed creates trillions of new dollars, that money has to go somewhere. Much of it flows into real estate, driving prices beyond what working families can afford. Your children can't buy homes because the banking system is inflating asset prices faster than wages can grow.

TIME IS RUNNING OUT

Your dollars are losing value every single day. While you wait, central banks are stockpiling gold at record levels. Don't let them get all the precious metals before you protect your retirement. Call (833) 656-GOLD immediately - every day of delay costs you money.

CHAPTER 6: THE COMING RECKONING

WHY CENTRAL BANKS ARE STOCKPILING GOLD AT RECORD PACE

The bankers' 1913 system is reaching its mathematical limits. Here are the warning signs that smart money is watching:

CENTRAL BANKS ARE HOARDING GOLD

In 2022 and 2023, central banks purchased more gold than at any time since 1967. They're quietly abandoning their own paper money system.

GOVERNMENT DEBT IS UNSUSTAINABLE

The U.S. government now spends more on interest payments than on defense. Mathematical reality is approaching.

INTERNATIONAL DOLLAR REJECTION

China, Russia, and other nations are increasingly settling trade without dollars. The system that exports American inflation to the world is breaking down.

THE **WARNING SIGNS** OF SYSTEMIC COLLAPSE

BANKING SYSTEM INSTABILITY:

Silicon Valley Bank, Credit Suisse, and other major financial institutions have failed. The "too big to fail" narrative is crumbling.

POLITICAL CHAOS:

Growing wealth inequality is creating social unrest and political extremism that threatens the stability necessary for their system to function.

MATHEMATICAL IMPOSSIBILITY

The national debt is growing faster than the economy. At some point, the mathematics simply don't work anymore.

HOW THE ELITE ARE POSITIONING FOR THE NEXT PHASE

The Elite Are Positioning: Wealthy families are quietly moving wealth into hard assets—real estate, art, precious metals, and other inflation-protected investments.

The same people who created the 1913 system know it's ending. They're protecting themselves while leaving ordinary Americans exposed to the collapse.

URGENT ACTION REQUIRED

The smart money is already moving. Central banks bought more gold in 2023 than any year since 1967. Don't wait for the collapse—protect your retirement NOW.

Call (833) 656-GOLD or visit AmericanAlternativeAssets.com/gold-ira to secure your financial future before it's too late.

DON'T WAIT UNTIL IT'S TOO LATE

History teaches us a crucial lesson: the greatest wealth is built by recognizing opportunities before they become obvious to everyone else. While most Americans remain trapped in the 1913 system, a select few are quietly positioning themselves for what's coming next.

THE NUMBERS DON'T LIE: GOLD'S TRACK RECORD SINCE 1913

Since the Federal Reserve's creation, gold has delivered returns that dwarf traditional investments:

- **From 1971–1980:** While the dollar lost 47% of its purchasing power to inflation, gold soared from \$35 to \$850 per ounce—a staggering 2,329% gain
- **From 2000–2011:** As the Fed printed trillions after the dot-com crash, gold climbed from \$280 to over \$1,900—a 579% increase
- **Since 2018:** Gold has outperformed the S&P 500, gaining over 80% while providing stability during market volatility

But here's what's really remarkable: Gold achieved these gains while providing the one thing paper assets can't—true wealth protection during currency crises.

WHY CENTRAL BANKS ARE STOCKPILING GOLD AT RECORD PACE

The world's financial institutions aren't buying gold for nostalgia. They're making calculated moves based on mathematical reality:

- **2023 marked the highest central bank gold purchases in 55 years**—over 1,037 tons acquired
- **China's central bank** has bought gold for 18 consecutive months, adding over 300 tons to reserves
- **The Bank of England, Federal Reserve, and European Central Bank** continue holding massive gold reserves despite promoting paper currency

Ask yourself: If gold is just a "barbarous relic" as they claim, why are the institutions that control the money supply accumulating it faster than ever?

THE PERFECT STORM CREATING GOLD'S NEXT MASSIVE MOVE

Several unprecedented factors are converging to create what could be gold's greatest bull market in history:

1. Currency Debasement Acceleration

The U.S. has printed more money in the last four years than in the previous 200 years combined. Every new dollar created dilutes the value of every dollar you own—but it increases gold's relative value.

2. Debt Crisis Reality

With \$37 trillion in national debt and \$200+ trillion in unfunded liabilities, the mathematics are impossible. The only "solution" is to inflate away the debt—which historically sends gold prices soaring.

3. International Dollar Rejection

BRICS nations representing 40% of global population are creating alternatives to the dollar system. As dollar demand falls, gold demand explodes.

4. Supply Constraints

New gold mine discoveries are at 70-year lows. It takes 10–20 years to bring new mines online, yet demand is accelerating globally.

THE HISTORICAL PRECEDENT YOU CAN'T IGNORE

Remember these crisis moments when gold separated the prepared from the devastated:

- **1933:** Americans who held gold (legally) preserved their wealth while others lost everything in bank failures
- **2008:** While retirees lost 40–50% in stocks and real estate, gold gained 25% that year and continued climbing
- **2013:** Cyprus confiscated up to 60% of large bank deposits overnight—but physical gold remained untouchable

YOUR GOLDEN SAFETY NET: THE MATH IS SIMPLE

Even a modest 10–15% allocation to physical gold can dramatically improve your portfolio's crisis resistance:

- **If stocks crash 40% (like 2008):** A portfolio with 15% gold typically falls only 25–30%
- **If inflation surges (like the 1970s):** Gold often gains while bonds and cash lose purchasing power
- **If currency devalues:** Physical gold maintains international purchasing power regardless of domestic monetary policy

THE WINDOW IS CLOSING FAST

The opportunity to acquire physical gold at reasonable prices won't last forever. As more investors recognize what central banks already know, prices could move dramatically higher very quickly.

Call (833) 656-GOLD today to schedule your complimentary consultation.

Our precious metals specialists will show you exactly how gold fits into YOUR retirement strategy and why waiting could cost you the opportunity of a lifetime.

No pressure. No sales tactics. Just the mathematical realities that smart money already understands.
